6. Quick Menu

The left hand column of each page contains a "Quick Menu" that links to other tools and to the "Short Title" tool. It makes it more efficient to navigate around the database. The menu stays on the left side of your screen as you scroll up and down the TradeLawGuide pages. The menu is displayed when you place the cursor on the "Quick Menu" bar.

7. "Short Titles" Tool

Have you ever wondered what the difference is between *Canada – Milk* and *Canada – Dairy*? It turns out there is no difference.

If you are reviewing WTO jurisprudence or other documents that use informal short titles to refer to WTO jurisprudence and you need to ascertain the full title or you have the full title and need to ascertain the informal short title, the "Short Titles" tool will assist you.

This tool presents short titles that have been used in WTO reports, awards and decisions. This tool is not based on an "official" list of short titles. Rather, it presents short titles that have *actually been used*. Where a short title has not yet been used for a particular report, award or decision, none will be presented. Different short titles may have be used for the same report, award or decision. Where this is the case, multiple short titles are presented.

Access the tool either though the link at the top right hand side of each page or through the "Quick Menu".

The data in the "Short Titles" tool can be sorted by short title or full title.

It can display titles for WTO jurisprudence or GATT 1947/GATT Code jurisprudence.

Click on [+] symbol to view data.

8. Integrated PDF Browser

8.1. Overview

TradeLawGuide uses an integrated PDF browser to enable you to view PDF documents efficiently and with pinpoint accuracy. For WTO jurisprudence documents, it also provides links to other important information including the Jurisprudence Citator.

The integrated browser is used in all of the TradeLawGuide tools when linking to PDF documents.

8.2. Full Citation

The integrated browser provides the full citation of all WTO jurisprudence documents so you can cut and paste the citation into your research document. If you would like to use a short title instead of the full citation, it is available from the "Short Titles" tool (discussed above).

8.5. Concise Research Summary

A concise research summary of the main findings and conclusions is provided to enable you to ascertain the content of the WTO jurisprudence at the various paragraph ranges and whether the provision you are researching is a central part of the reasoning and analysis.

The summary is succinct and written at a high level of generality. It summarizes findings and conclusions in respect of both substantive and procedural claims. It does not detail legal reasoning or interpretations developed in the course of arriving at findings and conclusions.

In addition to providing an overview of the content of the document, where there are a large number of paragraph and footnote links, this will enable you to determine which links to click on first.

E SUMMARY	
The Appellate Body recalled the procedures it had adopted governing <i>amicus curiae</i> submissions (paras. 50-57). The Appellate Body reversed the Panel's finding that the TBT Agreement did not apply to the part of the Decree relating to the ban on imports of asbestos and asbestos- containing products because that part did not constitute a "technical regulation" within the meaning of Annex 1.1 to the TBT Agreement, and found that the measure, viewed as an integrated whole, did constitute a "technical regulation" under the TBT Agreement (paras. 59-83). The Appellate Body reversed the Panel's interpretation of "like products" under Article III:4 of GATT 1994, and reversed the Panel's finding that the measure was inconsistent with Article III:4 of the GATT 1994 (paras. 84-154). The Appellate Body upheld the Panel's finding that the measure at issue was "necessary to protect human life or health", within the meaning of Article XX(b) of GATT 1994, and found that the Panel acted consistently with Article 11 of the DSU in reaching this conclusion (paras. 175-181). The Appellate Body found that the Panel did not act inconsistently with Article 11 of the DSU (paras. 176-181). The Appellate Body upheld the Panel's finding that measure XX of GATT 1994 may nonetheless give rise to a cause of action under Article XXIII:1(b) of GATT 1994 (paras. 182-191).

Where there is considerable reasoning on a particular subject, key points from that reasoning may be extracted. The extracts are intended solely to assist you in quickly identifying information that is relevant to your research. Please consult the full text of the jurisprudence using the links provided. This function is most widely used in the Article Citator.

8.7. Key Findings (where relevant):

Where key findings are made on a particular WTO provision, the Article Citator extracts those findings.

9. Treatment of Panel Reports that Have Been Appealed

Where TradeLawGuide provides information related to a panel report that has been appealed, it provides information relevant to the appeal in the following ways.

9.1. Where the Appellate Body Report has Not Yet Been Issued

Where a panel report is under appeal and an Appellate Body report has not been issued, the designation "(Panel Report under appeal)" will be included following the citation.
